EXPERIENCE

Tevel Cyber Corps | On-site — Feb 2023 - Present

(Payroll managed by Stuvanta Tech LLP until Sep 2025)

Cyber Security Engineer (Promoted from Senior Cyber Security Analyst)

Oct 2025 - Present

- ➔ Lead and mentor a team of Cyber Security Analysts, overseeing task allocation, technical guidance, performance, and project delivery.
- ➔ Deliver end-to-end security engagements, including VAPT, Security Audits, Network Security Gap Assessments, and remediation planning for enterprise clients.
- ➔ Conduct digital forensics investigations, recover and analyze digital artifacts, and prepare forensic reports to support incident response and legal investigations.
- ➔ Develop offensive security use cases for Windows and Linux environments while delivering Cyber Security awareness and technical training for government and law enforcement agencies.
- ➔ Research and develop AI/LLM security use cases, focusing on prompt injection, AI red teaming, agent security, RAG security, and emerging threats.

Senior Cyber Security Analyst (Promoted from Cyber Security Analyst)

Feb 2023 - Sep 2025

- ➔ Delivered Web, Network, and System VAPT engagements, Security Audits, and Network Security Gap Assessments for enterprise clients.
- ➔ Performed SOC monitoring and threat detection using StellarCyber, CrowdStrike, Wazuh, Qualys, Proofpoint, Netskope, Cisco Umbrella, and other security platforms.
- ➔ Developed offensive security use cases and conducted digital forensics investigations supporting incident response and law enforcement.

TECHNICAL SKILLS

Leadership

- ✔ Team Management
- ✔ Problem Solving

Offensive Security

- ✔ Vulnerability Assessment
- ✔ Vulnerability Management
- ✔ Web Application Penetration Testing
- ✔ Network Penetration Testing
- ✔ Security Gap Analysis

Blue Team & DFIR

- ✔ Threat Hunting
- ✔ Malware Analysis
- ✔ Digital Forensics
- ✔ Disk Image Analysis
- ✔ Data Carving

Infrastructure & Security

- ✔ Windows & Linux
- ✔ Network Firewalls
- ✔ WAF
- ✔ Microsoft 365 Security
- ✔ OS Hardening

- ➔ Researched IoT, OT, and LLM security while providing technical assistance for Cyber Security learning programs.

Virtually Testing Foundation | Remote | Cyber Security Engineer Internship

May 2022 - Jun 2022

- ➔ Completed hands-on training in penetration testing, MITRE ATT&CK, Splunk, digital forensics, and Cyber Security Best Practices.

Cyber Secured India | Remote | Cyber Security & Digital Forensics Internship

Jan 2022 - Mar 2022

- ➔ Gained hands-on experience in digital forensics investigations and the use of industry-standard forensic tools.

Virtually Testing Foundation | Remote | Penetration Testing Internship

Sep 2021 - Dec 2021

- ➔ Gained hands-on experience in web application penetration testing, vulnerability assessment, technical reporting, and practical security labs.

Haryana Police India | Remote | GURUGRAM Police Cyber Security Summer Internship

Jan 2021 - Jul 2021
